

# AQUALON®

Aqualon® is a two-ply polyester duck double coated with a pigmented vinyl resin on the topside. The underside is coated with a durable water resistant finish. It has excellent dimensional stability and weight-to-strength ratio and remains flexible in all climates. The color will not rub off, nor will it crack, peel or harden. Aqualon is resistant to mildew, abrasion, water penetration, most petroleum products, ultraviolet rays and a wide range of acid and alkaline liquids. All backed by a 5-year limited warranty.

60 inches wide, 9 oz. per sq. yd. (MVSS302 finish available on special run.)
